AMENDMENTS TO THE ABSTRACT:

Please amend the Abstract as shown on a separate sheet:

ABSTRACT OF THE DISCLOSURE

~~A method to create within a computer system, an~~ An association is created in a
computer system between the appearance of a token and one or more stored files for the
purpose of retrieving and presenting said one or more stored files; ~~comprising the steps~~
~~of: measuring said.~~ The appearance of said ~~the token; creating is measured and a token~~
~~identity is created~~ from the obtained measurement; storing said. The token identity is
stored in an identity store; ~~associating within said computer system; said .~~ The stored file
is associated with ~~said~~ the token identity; subsequently measuring said within the
computer system. The appearance of said ~~the token; creating a~~ is subsequently measured
and a subsequent identity is created for ~~said~~ the token using subsequent measurement data
obtained from ~~said~~ the subsequent measurement; searching in said. The identity store is
searched for a match with ~~said~~ the subsequent identity; and upon the location of a match,
~~retrieving said~~ the one or more stored files; and presenting said retrieved file are retrieved
and presented to a user.
